

BRENAN FUITEN: COUNCILLOR CANDIDATE

Brenan has been a part of the RDC community for a number of years, and has had four different majors in that time, proving that you don't need to have a clear and defined path as soon as you enter post-secondary schooling.

Brenan is in their 4th year of their BA Psychology program through the collaborative with the University of Calgary. One of the main advantages that Brenan can offer to students is that by being a long term student at RDC they have a greater understanding of what resources, opportunities, and programs are available to student members, in addition to the struggles that they face as part of their education. Rerunning for student council this year will help to keep a voice on council that allows for reduced downtime in advocating for students voices and issues.

Over the past few years you could have found Brenan helping students in the library as a tutor at the Writing Skills Centre, visiting classrooms and helping organize the Agora Undergraduate Conference, editing papers for the Agora Journal, and being the student voice on the school council. Once Covid-19 subsides, if you see them in the halls they are more than willing to stop and chat, especially if it ends up being an issue that affects your education.

Outside of school Brenan normally is seen drinking way too much coffee, playing guitar, or videogames, and escaping into adventures in the world of Dungeons and Dragons.
